|                       |                        |
|-----------------------|------------------------|
| <b>Address</b>        | {value_address}        |
| <b>Contact Person</b> | {value_contact_person} |
| <b>Mobile Number</b>  | {value_mobile_number}  |
| <b>Email</b>          | {value_email}          |

Yet another Perl CGI script providing a web interface for updating news items on a web page. A user-defined number of items appear on the "current news" page and older items are automatically moved into date-based archive files.
