Mobile Number	{value_mobile_number}
Email	{value_email}

Nuxeo CPS is the collaborative web content management solution for Zope. Users create and manage content in Workgroups and publish them in Publications spaces (Hierarchies) through a dedicated workflow. Managers can easily set global and local roles for users (Workgroup Managers, Members, Visitors, Reviewers, and Readers). All actions are available through simple Web interfaces. Nuxeo CPS also features office document integration, indexing, and conversion to HTML format; versioning; attached comments; interactive services (e.g. mailing-lists); and skinning of hierarchies.
