

Omnistar Live Chat Support Software

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

Omnistar Live is a live chat support software system that allows you to chat with site visitors, log support issues in a help desk and create a knowledgebase of information. Omnistar Live is also a dynamic call tracking software solution that can be used to manage support and sales issues reported in any help desk call center. The dynamic live chat component of Omnistar Live will not only allow your visitors to request chats with you, but you will also be able to initiate chat sessions with anyone visiting your site. Through the chat windows you will also be able to push web pages to visitors, send visitors a customized survey form, transfer chats to other staff and save, print and email the entire chat transcript.
