

Online Announcer

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

Online Announcer is a multi-browser compatible solution for managing online events, updates, keeping an online journal and more. Each month includes it's own month and image file which means that you can use a different background scene for individual months (ie; leaves in the fall, snow in the winter, etc). The month files can also incorporate Javascript, DHTML, CSS, Java and other internet languages making customization a breeze.
