While working on internet you need to bookmark several important URLs, sometime you also need to share them and you always needed to access them from anywhere. Truworth's online bookmark management script solves this purpose. It is easy to use and with high level of functionality. With our bookmark script users can easily make bookmarks safe and easily accessible from anywhere using internet. Our bookmark tool also provides facility to share bookmarked URLs. Bookmarked URLs can be edited, deleted or can be shared easily. It also provides the facility to Export and Import URLs. All you need to make it work is as Apache Web server with PHP Script and a MySQL as database.
