

Online Dating Software

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

Dating software that creates dating, personals or matchmaking website or portal. Main features include speed dating module (manage events), third party scripts integration - flashchat, flashbb, phpbb, vBulletin, UserPlane a/v chat, messenger and webrecorder. You can offer pictures, sounds and voice files uploading. Everything is configurable via admin panel. You can also edit css and language files. Finally, you can edit profile fields to meet your needs. Software comes with 9 premade design templates, free installation, free lifetime version upgrades and support via private forum, public forum and LiveChat.
