The Multi-Product Editor provides users using the OptionCart Catalog system and Mals-E Free Shopping Cart Software combination to view, edit, duplicate and delete multiple products on the same page. The Multi-Product Editor works in conjunction with the OptionCart Catalog, which integrates seamlessly with Mals-E shopping cart software. The combination of Mals-E shopping cart, the OptionCart Catalog, & the Multi-Product Editor creates one of the most powerful tools you can find or use for your eCommerce site! Also available are Custom Mods available for the Simple Site Catalog (an upgraded version of the OptionCart Catalog.) Although the Simple Site Catalog is fully customizable and comes with dozens of bells & whistles, additional tweaks & development are also possible, as portrayed by the custom mods also available on this site.
