FME has always produced top of the line extensions providing store owners with the best features available! The Open Jobs Magento Extension is FME's most cutting edge extension developed for companies looking to advertise their jobs. Embellished with stunning features, this extension allows you to manage jobs perfectly from the Back End. The Open Jobs Magento Extension provides 6 smart modules to manage your jobs. You can define job types, their locations, departments and much more. Each job has a section from where you will be able to manage applications received against it. This section provides required information for applicants like Name, Email, Application date, Phone and resume. Also another wonderful feature without which an application is considered to be incomplete has been provided and that is social integration. You can now publish any job to Facebook, Twitter and Linked-in.
