

Open Journal (OJ)

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

Whether you call it a weblog, a diary, or a journal, this simple Open Journal perl script will manage and maintain your Web-based musings and writings from a completely Web-based interface. Features include: automated file creation; automated index updating; automated archiving based on a weekly or monthly format. All done through ordinary text files and no additional perl modules needed to run it.
