It is important to check all the errors, bugs, security gaps, missing images, broken links and other problems before bringing customers to your online store. Many problems can not be identified during regular visual testing. In osCommerceDoctor.com, experienced team of professionals with 5+ years of osCommerce, CRE Loaded, ZenCart and general web experience will perform comprehensive analyses of your completed osCommerce shop and will provide report to you. We use special tools that enable us to catch problems very fast, where you can spend days to test and look for. In addition we do a wide range of visual testing and analyses based on the check list that we created.
