The Parabase Web-Order-System is a web-based order-entry system and incorporates everything that is needed to get your order from the web. The system supports classical order entry, order entry with a HTML-link and a catalog based shopping-cart interface. It can include HTML files, pictures and has an interface that is very easy customized. The system does not need JavaScript, nor cookies, nor frames for most of its functionality. The system currently interfaces to QuickBooks, credit card processing and Excel/Access.
