

PAYPAL ADAPTIVE PAYMENTS

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

Build Magento Stores to handle payments 1 - Send simple payments to a single recipient. 2 - Make split payments to multiple recipients. 3 - Send chained payments to multiple recipients, one after the other. Each recipient can take a cut of the payment. 4 - Make parallel payments to multiple recipients at the same time. Manage Refund Embed payments in applications - Allow customers to check out without leaving your app or website and accept micropayments for as little as 50 cents.
