Paypal Download Manager is an extensive and powerful script to run your own fully automated product delivery website. This allows you to sell digital goods and offer instant downloads to your customers. You simply use the control panel to add products and they will instantly show up on your main page with a purchase link. Paypal Download Manager allows you to sell products individually or turn on the shopping cart option, which allows visitors to add multiple products to their cart and make a single payment. After they have made payment the website will automatically email them the link to instantly download their purchase. The whole system is fully automated and you don't need to lift a finger. This is the fastest way to sell non tangible goods on the Internet!
