Mobile Number	{value_mobile_number}
Email	{value_email}

This program is designed to let the small to medium computer retail/wholesale companies the ability to deliver real-time computer system configuration information, purchase order form, and delivery of information to both customer and retailer/wholesaler. PC Configurator Professional will configure a system with exactly the componenets desired by the customer, and offer a real-time cost calculation. The customer then has the choice to get another quotation or order the configured system as is, online. With computer part prices changing almost daily, PC Configurator Professional can be easily configured to add/remove new components and prices.
