PD ShippingCom real-time shipping calculator

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

Instantly provide fast and accurate shipping rates to your customers. And, you decide which services you want your customers to see/select. Supports USPS, UPS, and FedEx Exclude/Include specific rates/services Rename the rates/services to anything you want Directly connects with Shipping companies Rates are always 100% accurate Rates based on Weight, Destination, Package Size (and Dimensions too) or any combination Built in Interactive State/Country DropDown lists Fast and Very Lightweight All you do is upload this small bin/dll file to your server and you can call the Shipping functions from your own Asp.Net pages (supports both VB.Net and C#). Same component in the award winning PDshop One component. Eliminates the learning curve and time you'd need to spend with multiple (and often complicated) Developer kits* and code examples.
