

pduconv - C-functions for converting PDU ASCII

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

This package contains two callable C-functions. The first converts from a plain ASCII string into a array of PDU bytes suitable for sending SMS via a cell phone. The second takes an PDU array and converts it back into a plain ASCII string again.
