Flynax Pet Classifieds Software is a flexible SEO friendly script that can be used by breeders, shelters, and private sellers to start their own pet sites, animal centers or shelters for selling or adoption of different animals. Despite the fact that our Pet Classifieds Software comes with pre-configured categories and forms you can easily add custom categories (breeds) for various animals using a highly flexible Flynax CMS. You also have the ability to manage profile, search and featured forms to show details specific to a particular breed. We offer more than 80 free and premium plugins, some of which can be used to strengthen your pets site both functionally and socially. In addition, the Pet Classifieds Software offers you a responsive template allowing your users to view and post ads with their mobile devices. If you want to make your site a truly mobile solution, take a look at our native Android and iOS Apps.
