

# PHP Auction System

<b>Address</b>	{value_address}
<b>Contact Person</b>	{value_contact_person}
<b>Mobile Number</b>	{value_mobile_number}
<b>Email</b>	{value_email}

In addition to the standard features that most auction scripts have, our new auction system has new features such as thumbnails on all major pages, standard/dutch auctions, Auction 'auto-re-listing', item and auction watch and multilingual support on sold items. The admin area features plenty of functions including eBay-like feedbacks and membership levels, page background management, banners management system, IP banning and much more!
