<b>Email</b>	{value_email}

A PHP Content or web page file rotator! Rotate any kind of web page files. Also comes with rotating complete images and complete text options. Rotate web page files daily, by day of the month or by day of the year, by hours, minutes, seconds, and in order. A PHP web page file random rotator and a PHP complete image and complete text random rotator comes with this also! As many rotators can go into each page as you want and all content is searched by search engines. Rotate all your own content yourself!
