

PHP Hangman Game

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

Play the classic hangman game - guess the word or phrase without getting more than 6 letters wrong. The word list can easily be modified in the script. Non-alphabetic characters are allowed, but filled in. It can also now be used with international (non-English language) letters or other characters as letter choices.
