

Php .htaccess mod_rewrite tutorial

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

There are a lot of tutorials that show how to change an address like: 1. www.mysite.com/products.php?product_id=1234 into others like: 2. www.mysite.com/products/1234 In this article we'd like to go one step forward and create something like: 3. [www.mysite.com/easy-to-re member-product-name](http://www.mysite.com/easy-to-re-member-product-name)
