

# PHP Links ODP

<b>Address</b>	{value_address}
<b>Contact Person</b>	{value_contact_person}
<b>Mobile Number</b>	{value_mobile_number}
<b>Email</b>	{value_email}

PHP Links supports import of ODP links. As long as you keep the link back, you can import and display your own Dmoz.org portal with your own interface. PHP Links has unlimited extra fields, and you can have a detailed page for each link with review, voting and display of screenshots and extra field answers.
