Php-MultiShop

Address   {value_address}

Contact Person   {value_contact_person}

Mobile Number   {value_mobile_number}

Email   {value_email}

Written in PHP/MySql, it can be used as a portal for any type of content (such as news, forums, events, etc.) and one or many independent shops. Every store will have its own Internet domain, and all the features and the personalization of a typical e-commerce site. Each can be administered in full autonomy by its own administrator.
