PHP ProBid / vBulletin bridge v0.1

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

The bridge creates a seemless user id throughout your website, freeing your users of remembering multiple usernames and allowing you to integrate your forum more smoothly. This is v0.1 of the script, we intent to release many more versions allowing for additional 3rd party scripts to be integrated. A Single license purchase entitles you to free lifetime updates.
