

# PHP Search

|                       |                        |
|-----------------------|------------------------|
| <b>Address</b>        | {value_address}        |
| <b>Contact Person</b> | {value_contact_person} |
| <b>Mobile Number</b>  | {value_mobile_number}  |
| <b>Email</b>          | {value_email}          |

In a series of tutorials here at Insane Visions, we have shown some of the basics of PHP and continue it with how to enable visitors to search your site, using PHP. We'll take you step by step on a fairly simple search feature. From the actual form, to the results and several things you can do to make your search better.
