

Php sqlite personal notes script

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

Php sqlite personal notes script. This script is very useful for keeping personal notes that you can visit from anywhere, just create a folder like `www.domain.com/notes` and view all your notes. Your notes are saved in SQLite database and you can also create a backup of all your notes, just copy the `.db` file to your computer.
