PHP/SWF Slideshow creates attractive web slideshows from dynamic image files and data. Among the possible uses are: Slideshows Photo albums & picture books Catalogs Story books Year books Portfolios Keynotes & business presentations Advertisement Trivia games Polls Use PHP scripts to generate or gather the data, then pass it to this tool to generate Flash (swf) slideshows. PHP/SWF Slideshow makes the best of both the PHP and SWF worlds. PHP scripts provide integration, and Flash provides the best display quality.
