<b>Mobile Number</b>	{value_mobile_number}
<b>Email</b>	{value_email}

The classic traffic exchange script revived. Beautifully recoded using bootstrap 3, PHP Traffic Exchange Script kick starts your traffic exchange adventure. Many existing php traffic exchange scripts that are floating around the internet are based on an age-old script that has been in use since 2004... And a design to match... (Read: ugly.) At PHP Traffic Exchange Script we've took it upon ourselves to completely recode the entire program, pulling it into 2016 and matching today's standards: rather than 2000's standards. Our script comes with a full administration panel that will allow you to manage and operate your site without any coding skills required. Creating, Managing and Operating a Traffic Exchange has NEVER been this easy!
