

phpCMS-Plugin: MenuManager

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

This is a Plugin to control the appearance periods of menus within the phpCMS system. It features the start- and/or stop-time (and date) of any menu in the phpcms-system can be configured. It's very easy to realize e.g. a christmas calendar this way. Easy to install and very flexible.
