

phpWebFileManager

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

Web based file manager. Features: Upload Single or Multiple Files (max 5); Rename Files; Copy Files; Delete Files; Column Sorting; File/Dir Search; Support of locale language now available (currently supporting English-US and German). Now available multi-child subdirectories creation with option to limit. Export/Import function using tar and gzip. Isn't suppose to be a Full FTP program but rather a user friendly file manager for end users.
