Pimcore is a free and open-source web content management platform for creating and managing web applications and digital presences. Pimcore features award-winning single-source and multi-channel publishing functionality making it easy to manage, update, and integrate content and data from various sources. With pimcore brands can create and manage rich digital experiences for all of their output channels at once: web, mobile, apps, social platforms, print and digital signage. Pimcore is the leading open source application suite for user experience management (WEM/UX/CX).
