Starting up a new business in dating or are you losing customers because of your current poor software? With over 5 years in the business of providing robust and innovative solutions for our customers, Datingsoftware.biz can help you achieve your goals. Our Platinum software package includes dating & social networking, speed dating, affiliate management and link directory software all in one package! Customize your site using administrator configurable items such as Skype integration, Userplane audio/video chat, blogs, skin selection, geographical area editor, internal forums, groups, user defined premium features and much, much more. Whether your site is targeting the international market or a niche segment of this vast and expanding personals business sector, you will quickly appreciate the comprehensive features included in the Platinum software. Check out our demo today or let one of our sales staff assist you more personally.
