

plx Ad Trader

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

plx Ad Trader will allow you to sell Banner and/or Text Ads on your web sites. Now it supports Geo Targeting and multiple sites. Google-like ads supported too. Ads will be rotated on different zones as you set them up in your admin area. You will be able in admin area to set as many ad packages as you wish and as many zones as well. Each zone represent an area on a page where ads are rotated. For every visit you receive to your sites a different ad will be shown. Advertisers will signup for free and once they are inside their advertiser area they can Buy ads. They will be able to manage all aspects of their ad campaign and can keep track of how it is going - stats for impressions and clicks are displayed for every ad. Admin can setup "Advertise here" ads to be displayed in the zone if there are not any active ads paid and setup by advertisers. This script is a complete solution for selling ad space on your sites. Easy installation with Setup Wizard.
