

# plx Business Rotator

<b>Address</b>	{value_address}
<b>Contact Person</b>	{value_contact_person}
<b>Mobile Number</b>	{value_mobile_number}
<b>Email</b>	{value_email}

Our business rotator script is a perfect solution for your internet advertising needs. Promote several businesses all with the same url. Assign a hit count to each as you need traffic, pause a url, or enable tracking. Members can join your business rotator service and use the rotator to promote/advertise their business. Our business rotator can be used for multiple purposes as needed. Many use this rotator as a way to control their "Guaranteed Signups" promotion order. You can place your order through one of the providers and use your rotator on your site to distribute your signups to your co-op downline members. Affiliate Tracking is offered to all members! Now in the latest version you can assign weight to every URL and also a user that has been already redirected to a particular URL is remembered with a cookie and on the next rotator load he is redirected to the same URL.
