Mobile Number	{value_mobile_number}
Email	{value_email}

poAppointment is an appointment site that lets business owners manage their clients' appointments online. Written in PHP and contains many great features. Clients can request new appointments which are recorded in admin panel for approval or cancellation. All appointments can be exported to Excel. Clients can add, edit, remove, contact information, change password, and many more features. Administrator has total control of the appointment site and he/she can add working hours, type of service, and rate of charges. It is a great script for those that want to extend their business a new level with online appointment manager. The script has three level of login: client, staff, and administrator. The new version accept payment online thought Paypal. The administrator can opt to accept payments only online or online and at the date of the appointment in person.
