

PowerQuant - modeling platform for the financial engineering industry

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

The product complements and substantially enhances the capabilities of existing statistical and financial modeling applications to provide a highly flexible, extensible and productive environment for finance professionals. Functionally, the product is design to be used by two types of users groups: quants (to create analytics) and advisors (to apply analytics)
