PpAsp.Mail

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

If you, like many others, need to send Email from your ASP web application or build a simple SMTP client application, then PpAsp.Mail ActiveX Server Component is all you will ever need. It implements the SMTP as per RFC 821 so that you can create and send email with only a few lines of Script.
