So, there has to be a solution for this, for patients who require medical care on a regular basis. It's none other than the Practo! Practo like app provides a virtual platform connecting the doctors and patients seamlessly. It allows patients to consult doctors without the need to physically visit hospitals. Looking at the current needs and demands for this kind of medical service, the healthcare market invites entrepreneurs to commence their business with Practo clone app solutions. In case you are wondering about the growth of the healthcare market, have a look at the stats given below. Figures That Talk Of Telemedicine Market According to data furnished by Ericsson's ConsumerLab, almost 60% of people prefer telemedicine platforms instead of physically visiting hospitals post covid pandemic. A US-based healthcare app named Teladoc Health has 43 million users accessing medical services through it. The Forrester research shows almost 1 billion online doctor visits this year. The National Health Service encourages online consultations. There are already 7000 general practitioners registered on the virtual platforms. A Chinese healthcare app, Ping An Good Doctor, is seeing 73,000 online doctor visits every day. All these facts and numbers affirm the market scope of the telemedicine business. This makes it the best time for entrepreneurs to set their foot in the healthcare industry with best-in-class solutions. Final Say, TurnkeyTown's well crafted Practo clone script will help you serve the best to patients in accessing health care assistance. For more details, reach out to us!
