Prismotube is a PHP Video Script that is based on the Youtube API. Prismotube auto creates and auto-updates thousands of video pages based on your targeted keywords. It attracts traffic like bees to honey. Prismotube is the quickest and most hassle-free way of creating a niche video site. In-built SEO attracts traffic from search engines naturally. You will also earn substantial ad revenue by monetizing your traffic! How Does it work? You add multiple categories, each categories will have a keyword related to it. Prismotube automatically pulls dozens of video data from Youtube based on your keywords. Prismotube then creates video pages for each video, resulting in dozens of video pages for each keyword. Typical Prismotube installation will have thousands of dynamic video pages (contents). Google will index your Video site and send to you thousands of visitors who've searched Google for your keywords. This is true Targeted Traffic, people !! Simple as that!
