Product Data CSV Export for Magento

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

The product data exporter code consists of a single file that you install in your website. This will create a page on your website from which you can download all the product data from your store. The output of this script can be connected to Aten Software's data feed service, which can submit your product listings to any shopping engine.
