Small images in the standard media gallery do not draw your customers' attention. Your site visitors can even overlook them. It is a great pity and moreover loss of profits for many businesses. You can't afford losing your potential clients because of the so inconspicuous but extremely important elements of the product page. The Product Images Slider extension rotates the pictures of your items, so that you can be sure that your customers' attention will be definitely attracted. Play with different animation speed values and select the one which is the most comfortable for your eyes. Small Magento static gallery is not catching and doesn't make your product page look unique. With Product Images Slider, just select the type of animation effect for your items pictures to be displayed and enjoy how your product page brisks.
