Your customers are busy and may not have the time or inclination to keep visiting your store for updates unless they have a specific need for. However, with the Product Updates Notifications Magento module from aheadWorks Co. you can alert your existing and potential customers updates about new products added to your store, new stocks and special offers. What's more, customers opt-in to receive the updates they want, so you know that your notifications are going to a highly receptive audience. The Product Updates Notifications extension has been designed to benefit not only you but also your customers! So not only will you be increasing visitor loyalty with greater store recall, but also enhancing their user experience with your store.
