Professional PHP4 XML

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

This book is a tutorial, a resource and a reference for PHP programmers who need to process XML data or interface different systems using XML. Non PHP programmers who need to construct a web based frontend for an application using XML can learn how to do it using PHP, since the book also covers the basic foundations of PHP programming. Advanced PHP programmers experienced in XML will obtain a reference as well as a very deep coverage on advanced topics.
