Profile Manager

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

Profile Manager is a database driven membership and profile management system. When a user registers it automatically adds the information about the user into the database. After registration process, user can log on the system by using his/her login and password. Any time point the user can see/modify/delete his profile or search others profiles. You have total power over abilities of the users or the design of the pages.
