

Project Planning and Management

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

The Project Planning and Management template is designed as a generic, affordable, Excel based solution to plan and manage any project. The ability to build the project's budget as tasks are identified facilitates the processes of business case proposal, valuation, and funding. Task progress can be automatically updated from remote participant workbooks sent or shared. Project dynamics can be altered and performance monitored with best practice Earned Value Analysis throughout the complete project lifecycle.
