The best, most cost efficient, exclusive "full-view" image protection solution on the web. Created to offer the average webmaster, professional developer or owner of copyrighted images using a thumbnail image display format, an affordable, safe, secure and easy way to achieve state of the art protection for all their full view images. ProtecImage<sup>™</sup> offers the same protection as our full-featured database version... ProtecPro Museum<sup>™</sup>, but without the admin, database or cataloging features. Highly adaptable. This latest version has been enhanced with better cross-browser protection. Show your pictures the way they were meant to be seen... in "full-view" hi-resolution!
