Manage all your web site links/banners using only a web browser. Specify link target. Open in new browser or specify the target frame. Allow banner upload for use in linking, optional. Set file extension limitations. Set maximum file size limitation. Up to 10 custom fields can be defined to capture the link data. Use pagination to have links span multiple pages. Manager defines how many links to show per page. Script does the rest. Allow the public to add links/banners to the system.
