

Pull-down Menu

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

The pull down menu is an excellent to condense many links into a small area. In the older days the only way to process a pull-down menu was to use a CGI script, but now you can do it with JavaScript. This tutorial presents several different types of pull-down menus: standard menu, menu with no button, using in frames, and using in a different window.
