Question & answer

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

Have scientists answer peoples questions for instance. This is a heavily dynamic application based on access 2002 db. You can easyily change it to fit your personal needs. Enjoy dynamic drop down boxes, ability to search questions & answers, advanced sql queries with loads of inner join, adminfunctions, client and server-side validation, email control, javascript with mouseover effects. It's ready to go, just extract and run it. Site design inspired by the microsoft.com style.
