Email	{value_email}

Quick Recovery Sun Solaris Intel is a do-it- yourself, non-destructive, simple and easy to use data recovery software, supports IDE, EIDE, SCSI , SATA drives, long file name, having multi-disk and multi-lingual support, simulates previously existing partitions and is read-only i.e. the program will never attempt to write to the drive to recover. Its unique Guided File Excavation Technology (GFETch) helps in locating email, files and folders lost behind overwritten partitions and even if bad sectors hinder drive access. An exhaustive scan of the drive is performed to locate lost volumes. . All found data in the lost partition is then presented in a tree structure so that you can copy your lost files to a working volume.
